

Ceramic Cross Partition Ring

Product No.: KPK-CCPR

Illustration 7: Ceramic Cross Partition Ring(KPK-CCPR)

Illustration 8: Ceramic Cross Partition Ring(KPK-CCPR)

Ceramic Cross-partition Ring is improved on the basis of ceramic raschig ring, and the added clapboard inner ring enlarged the surface area and increased crushing strength. It is usually used as the first floor support packing with the advantages of lower crushing strength and less wall flow and canal flow.

Size & Specification:

Product Name	Size mm	Diameter* Height* Thickness mm	Surface Area m ² /m ³	Void Space %	Bulk Density kg/m ³	Number /m ³	Packing factor m ⁻¹
Cross Partition Ring	Φ50	50×50×5	135	50	520	5600	1080
	Φ80	80×80×8	120	53	780	2100-2500	806
	Φ100	100×100×10	110	56	750	900-1000	626
	Φ150	150×150×15	60	58	680	270-300	308
