

## Polyhedral Hollow Ball

Product No.: KPK-PHB

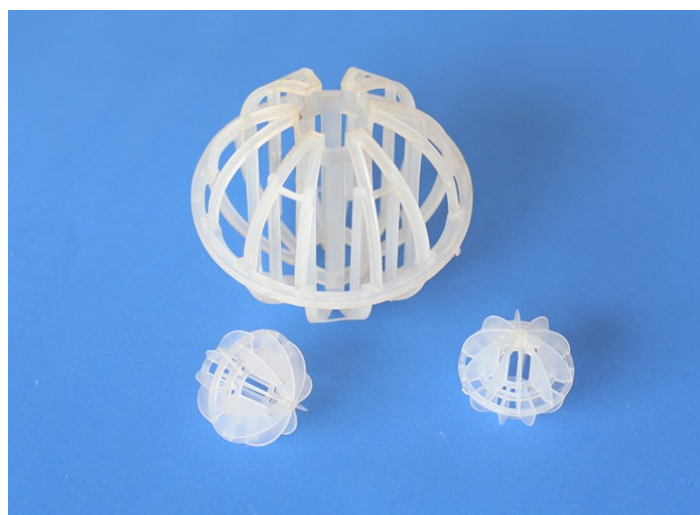

Illustration 9: Polyhedral Hollow Ball(KPK-PHB)

Hollow ball has good absorption effect and high purifying efficiency. It is widely used in chemical industry.

### Size & Specification:

Product Name	Size mm	Diameter* Height* Thickness mm	Surface Area m <sup>2</sup> /m <sup>3</sup>	Void Space %	Bulk Density kg/m <sup>3</sup>	Number/ m <sup>3</sup>	Packing factor m <sup>-1</sup>
Polyhedral Ball	Φ25	25×1.0	460	90	96	65100	631
	Φ38	38×1.2	325	91	83	28500	355
	Φ50	50×1.5	236	91	76	11500	313

Note: The bulk density given here is based on PP material.
